

PsyD Program Learning Outcomes (PLOs)

PLO 1: Scientific Orientation

Students will utilize knowledge of psychology, including evidence-based practice and the scientific method, to predict and plan treatments for psychological issues.

Indicators	Initial	Developing	Developed	Proficient
<p>1.1. Select relevant research literature and critically review its assumptions, conceptualization, methodology, interpretation, and generalizability</p>	<ul style="list-style-type: none"> • Does not critically evaluate or apply research findings to practice; lacks attention to research applicability and generalizability • Demonstrates little to no ability to interpret or communicate empirical research results in a manner that is easily understood by non-scientific audiences 	<ul style="list-style-type: none"> • Demonstrates some ability to critically evaluate and apply research findings to practice • Does not sufficiently interpret or communicate empirical research results in a manner that is easily understood by non-scientific audiences 	<ul style="list-style-type: none"> • Has ability to critically evaluate and apply research findings to practice with attention to its applicability and generalizability • Interprets and communicates empirical research results in a manner that is easily understood by non-scientific audiences 	<ul style="list-style-type: none"> • Demonstrates superior ability to critically evaluate and apply research findings to practice with all due attention to its applicability and generalizability • Consistently interprets and communicates empirical research results in a manner that is easily understood by non-scientific audiences
<p>1.2. Acquire and disseminate knowledge in accord with scientific and ethical principles</p>	<ul style="list-style-type: none"> • Does not critically evaluate the literature relevant to professional practice • Does not share psychological knowledge with groups in professional settings in an unbiased manner 	<ul style="list-style-type: none"> • Generally is able to critically evaluate the literature relevant to professional practice • Shares minimal psychological knowledge with groups in professional settings in an unbiased manner 	<ul style="list-style-type: none"> • Critically evaluates the literature relevant to professional practice • Can describe and share psychological knowledge with groups in professional settings in an unbiased manner 	<ul style="list-style-type: none"> • Identifies and judges critically the literature relevant to professional practice • Accurately and logically shares psychological knowledge with groups in professional settings in an unbiased manner

PLO 2: Assessment and Intervention

Students will assess clients and design informed, individualized interventions in developing services for the community.

Indicators	Initial	Developing	Developed	Proficient
<p>2.1. Apply knowledge of individual and diversity characteristics in assessment and diagnosis</p>	<ul style="list-style-type: none"> • Demonstrates little ability to integrate knowledge of client characteristics in formulating assessment questions and understanding the reason for assessment • Does not select assessment methods or instruments based on psychometric properties, available normed data, or criterion-referenced standards • Does not ensure professional opinions, recommendations, or case formulations adequately reflect consideration of client characteristics 	<ul style="list-style-type: none"> • Demonstrates developing integration of client characteristics in formulating assessment questions and understanding the reason for assessment • Demonstrates basic ability to select assessment methods and instruments based on psychometric properties, available normed data, and criterion-referenced standards • Recognizes professional opinions, recommendations, and case formulations should adequately reflect consideration of client characteristics 	<ul style="list-style-type: none"> • Can integrate knowledge of client characteristics in formulating assessment questions and understanding the reason for assessment • Selects assessment methods and instruments based on psychometric properties, available normed data, and criterion-referenced standards • Ensures that professional opinions, recommendations, and case formulations adequately reflect consideration of client characteristics 	<ul style="list-style-type: none"> • Effectively utilizes knowledge of client characteristics in formulating assessment questions and understanding the reason for assessment • Selects and defends assessment methods and instruments based on psychometric properties, available normed data, and criterion-referenced standards • Consistently ensures professional opinions, recommendations, and case formulations adequately reflect consideration of client characteristics
<p>2.2. Demonstrate effective interviewing skills</p>	<ul style="list-style-type: none"> • Has great difficulty adapting interview questions and behaviors in light of the characteristics of the interviewer and interviewee • Demonstrates little flexible, empathic, or appropriate use of a broad range of 	<ul style="list-style-type: none"> • Demonstrates the ability to adapt interview questions and behaviors in light of the characteristics of the interviewer and interviewee • Demonstrates an understanding of flexible, empathic, and appropriate use of a 	<ul style="list-style-type: none"> • Adapts interview questions and behaviors in light of the characteristics of the interviewer and interviewee • Ensures flexible, empathic, and appropriate use of a broad range of interview techniques • Considers contextual information in conducting an interview 	<ul style="list-style-type: none"> • Forms excellent interview questions and behaviors in light of the characteristics of the interviewer and interviewee • Demonstrates superb flexible, empathic, and appropriate use of a broad range of interview techniques

	<p>interview techniques</p> <ul style="list-style-type: none"> • Does not consider contextual information in conducting an interview 	<p>broad range of interview techniques</p> <ul style="list-style-type: none"> • Can identify contextual information in conducting an interview 		<ul style="list-style-type: none"> • Always considers contextual information in conducting an interview
<p>2.3. Administer and score instruments following current guidelines and research</p>	<ul style="list-style-type: none"> • Lacks the knowledge to administer, score, and interpret a range of commonly used standardized assessment instruments • Does not adapt relevant guidelines in situations requiring non-standard administration, scoring, interpretation, or communication of assessment results 	<ul style="list-style-type: none"> • Administers, scores, and interprets a select range of commonly used standardized assessment instruments • Demonstrates some use of relevant guidelines in situations requiring non-standard administration, scoring, interpretation, or communication of assessment results 	<ul style="list-style-type: none"> • Administers, scores, and interprets a range of commonly used standardized assessment instruments • Adapts relevant guidelines in situations requiring non-standard administration, scoring, interpretation, or communication of assessment results 	<ul style="list-style-type: none"> • Administers, scores and interprets a comprehensive range of standardized assessment instruments • Adapts and identifies all relevant guidelines in situations requiring non-standard administration, scoring, interpretation, or communication of assessment results
<p>2.4. Interpret and synthesize results from multiple sources following current guidelines and research</p>	<ul style="list-style-type: none"> • Does not know how to interpret and integrate results from standardized tests nor interviews following established guidelines • Does not identify the strengths and limitations of various types of assessment data • Has great difficulty reconciling or explaining discrepancies between various sources of data • Does not synthesize client-specific and 	<ul style="list-style-type: none"> • Does not sufficiently interpret and integrate results from standardized tests and interviews following established guidelines or multiple applicable norm sets • Generally identifies the strengths and limitations of various types of assessment data • Demonstrates minimal ability to reconcile or explain discrepancies between various sources of data and 	<ul style="list-style-type: none"> • Interprets and integrates results from standardized tests and interviews following established guidelines and, as appropriate, multiple applicable norm sets • Identifies the strengths and limitations of various types of assessment data • Reconciles or explains discrepancies between various sources of data and suggests alternative interpretations or explanations in light of any limitations of assessment instruments 	<ul style="list-style-type: none"> • Demonstrates ability to thoroughly interpret and integrate results from standardized tests and interviews following established guidelines and, as appropriate, multiple applicable norm sets • Comprehensively identifies the strengths and limitations of various types of assessment data • Correctly identifies discrepancies between various sources of data and actively suggests

	scientific data with contextual factors	infrequently suggests alternative interpretations or explanations <ul style="list-style-type: none"> • Demonstrates developing ability to synthesize client-specific and scientific data with contextual factors to refine working hypotheses 	<ul style="list-style-type: none"> • Synthesizes client-specific and scientific data with contextual factors to refine working hypotheses and develop conclusions and recommendations across a range of problems 	alternative interpretations or explanations in light of any limitations of assessment instruments <ul style="list-style-type: none"> • Forms an excellent synthesis of client-specific and scientific data with contextual factors to refine working hypotheses and develops conclusions and recommendations across a range of problems
2.5 Formulate and communicate diagnoses, recommendations, and/or professional opinions using relevant criteria and considering all assessment data	<ul style="list-style-type: none"> • Does not formulate diagnoses using current taxonomies • Cannot provide recommendations that incorporate client and contextual factors • Does not communicate assessment results to clients, referral sources, or other professionals in an integrative manner 	<ul style="list-style-type: none"> • Demonstrates basic knowledge needed to formulate diagnoses using current taxonomies • Can recognize information needed to provide recommendations that incorporate client and contextual factors • Demonstrates limited ability to communicate assessment results to clients, referral sources, and other professionals in an integrative manner 	<ul style="list-style-type: none"> • Formulates diagnoses using current taxonomies • Provides recommendations that incorporate client and contextual factors, including diagnosis • Communicates assessment results to clients, referral sources, and other professionals in an integrative manner 	<ul style="list-style-type: none"> • Demonstrates superior formulation of diagnoses using current taxonomies • Consistently provides recommendations that incorporate client and contextual factors, including diagnosis • Accurately communicates assessment results to clients, referral sources, and other professionals in an integrative manner
2.6 Select interventions for clients based on ongoing assessment and research evidence	<ul style="list-style-type: none"> • Has difficulty conceptualizing interventions or treatments on the basis 	<ul style="list-style-type: none"> • Demonstrates some understanding of the knowledge necessary to conceptualize 	<ul style="list-style-type: none"> • Conceptualizes intervention and treatment on the basis of evidence-based literature 	<ul style="list-style-type: none"> • Identifies and implements appropriate interventions or treatments on the basis

<p>as well as contextual and diversity factors</p>	<p>of evidence-based literature</p> <ul style="list-style-type: none"> • Does not integrate client or stakeholder opinions, preferences, readiness to change, or potential for improvement into intervention plan 	<p>intervention or treatment on the basis of evidence-based literature</p> <ul style="list-style-type: none"> • Can selectively integrate client or stakeholder opinions, preferences, readiness to change, and potential for improvement into intervention plan 	<ul style="list-style-type: none"> • Identifies the means to integrate client or stakeholder opinions, preferences, readiness to change, and potential for improvement into intervention plan 	<p>of evidence-based literature</p> <ul style="list-style-type: none"> • Integrates client or stakeholder opinions, preferences, readiness to change, and potential for improvement into all aspects of the intervention plan
<p>2.7 Apply and modify interventions based on ongoing assessment, research, contextual factors, client characteristics, and situational and environmental variables</p>	<ul style="list-style-type: none"> • Fails to articulate evidence-based rationale for decisions, recommendations, or opinions to clients • Rarely evaluates, modifies, or assess the effectiveness of interventions • Does not consult with qualified peers when facing the need to modify interventions in unfamiliar situations 	<ul style="list-style-type: none"> • Can articulate some evidence-based rationale for decisions, recommendations, and opinions to clients and others as indicated • Does not sufficiently evaluate, modify, or assess the effectiveness of interventions, considering all relevant variables including biases and heuristics • Generally consults with qualified peers when facing the need to modify interventions in unfamiliar situations 	<ul style="list-style-type: none"> • Articulates evidence-based rationale for decisions, recommendations, and opinions to clients and others as indicated • Continually evaluates, modifies, and assesses the effectiveness of interventions, considering all relevant variables including biases and heuristics • Consults with qualified peers when facing the need to modify interventions in unfamiliar situations 	<ul style="list-style-type: none"> • Selects and defends evidence-based rationale for decisions, recommendations, and opinions to clients and others as indicated • Thoroughly evaluates, modifies, and assesses the effectiveness of interventions by considering all relevant variables including biases and heuristics on a continual basis • Leads or coordinates consultation with qualified peers when facing the need to modify interventions in unfamiliar situations

PLO 3: Relational and Cultural Competence

Students will interact with clients and professionals in a respectful and appropriate manner for a variety of diverse cultural and social contexts.

Indicators	Initial	Developing	Developed	Proficient
<p>3.1. Integrate and apply theory, research, professional guidelines, and personal understanding about social contexts to work effectively with diverse clients</p>	<ul style="list-style-type: none"> • Fails to recognize, understand, or monitor the impact of one’s own identities in professional situations • Does not engage in respectful interactions with an awareness of individual, community, and organizational differences • Lacks the skills to modify their own behavior based on self-reflection and an understanding of the impact of social, cultural, and organizational contexts • Has yet to follow professional guidelines and scientific literature when available for providing services to diverse populations • Does not apply culturally appropriate skills, techniques, and behaviors with an appreciation of individual differences 	<ul style="list-style-type: none"> • Demonstrates minimal ability to recognize, understand, and monitor the impact of one’s own identities in professional situations • Demonstrates basic engagement in respectful interactions with an awareness of individual, community, and organizational differences • Is developing the ability to modify their own behavior based on self-reflection and an understanding of the impact of social, cultural, and organizational contexts • Recognizes and attempts to follow professional guidelines and scientific literature for providing services to diverse populations • Demonstrates limited ability to apply culturally appropriate skills, techniques, and behaviors with an appreciation of 	<ul style="list-style-type: none"> • Recognizes and monitors the impact of one’s own identities in professional situations • Engages in respectful interactions with an awareness of individual, community, and organizational differences • Modifies their behavior based on self-reflection and an understanding of the impact of social, cultural, and organizational contexts • Follows professional guidelines and scientific literature for providing services to diverse populations • Applies culturally appropriate skills, techniques, and behaviors with an appreciation of individual differences 	<ul style="list-style-type: none"> • Recognizes, understands, and monitors the impact of one’s own identities in professional situations and is able to take corrective action if required • Engages in respectful interactions with an awareness of individual, community, and organizational differences asking appropriate questions and demonstrating an accountability for the results • Modifies one’s own behavior based on self-reflection and an understanding of the impact of social, cultural, and organizational contexts by utilizing the assistance of other professionals and peers • Consistently follows professional guidelines and

		individual differences		<p>scientific literature for providing services to diverse populations</p> <ul style="list-style-type: none"> • Demonstrates superior ability to apply culturally appropriate skills, techniques, and behaviors with an appreciation of individual differences
<p>3.2. Work effectively with individuals, families, groups, communities, and organizations</p>	<ul style="list-style-type: none"> • Does not use relational skills to engage, establish, or maintain working relationships with a range of clients • Has difficulty communicating respectfully and showing empathy for others • Does not collaborate effectively in professional interactions 	<ul style="list-style-type: none"> • Demonstrates some understanding of the relational skills need to engage, establish, and maintain working relationships with a range of clients • Can communicate respectfully, showing empathy for others • Demonstrates some ability to collaborate effectively in professional interactions 	<ul style="list-style-type: none"> • Uses relational skills to engage, establish, and maintain working relationships with a range of clients • Communicates respectfully and shows empathy for others • Collaborates effectively in professional interactions 	<ul style="list-style-type: none"> • Use superb relational skills to engage, establish, and maintain working relationships with a range of clients • Communicates respectfully, showing empathy for others in all aspects of professional life • Leads collaborations effectively in professional interactions
<p>3.3. Demonstrate respect for others in all areas of professional practice</p>	<ul style="list-style-type: none"> • Unable to consider differing viewpoints held by clients and others • Does not respond to differing viewpoints nor seeks clarification to increase understanding before taking action 	<ul style="list-style-type: none"> • Does not sufficiently consider differing viewpoints held by clients and others • Generally responds to differing viewpoints by seeking clarification to increase understanding before taking action 	<ul style="list-style-type: none"> • Considers the differing viewpoints held by clients and others • Responds to differing viewpoints by seeking clarification to increase understanding before taking action 	<ul style="list-style-type: none"> • Correctly identifies and considers differing viewpoints held by clients and others • Thoughtfully, and with professionalism, responds to differing viewpoints by seeking clarification to increase understanding before taking action
<p>3.4. Identify and manage interpersonal</p>	<ul style="list-style-type: none"> • Some ability to manage difficult and complex 	<ul style="list-style-type: none"> • Demonstrates minimal ability to manage 	<ul style="list-style-type: none"> • Manages difficult and complex interpersonal 	<ul style="list-style-type: none"> • Logically manages difficult and complex

conflict between self and others	interpersonal relationships between self and others <ul style="list-style-type: none"> • Does not consult with peers to examine and address one's own reactions and behavior when managing interpersonal conflict 	difficult and complex interpersonal relationships between self and others <ul style="list-style-type: none"> • Is developing consultant relationships with peers to examine and address one's own reactions and behavior when managing interpersonal conflict 	relationships between self and others <ul style="list-style-type: none"> • Consults with peers to examine and address one's own reactions and behavior when managing interpersonal conflict 	interpersonal relationships between self and others in a respectful and thorough manner <ul style="list-style-type: none"> • Coordinates consultation with peers to examine and address one's own reactions and behavior when managing interpersonal conflict
----------------------------------	--	--	--	--

PLO 4: Professionalism

Students will critically evaluate professional practice through self-reflection and feedback from others.

Indicators	Initial	Developing	Developed	Proficient
4.1. Identify and observe boundaries of competence in all areas of professional practice	<ul style="list-style-type: none"> • Has yet to identify limits of professional competence • Does not use knowledge of professional competence to guide scope of practice • Sometimes seeks appropriate consultation when unsure about one's competence or additional need for training and professional development • Does not seek additional knowledge, training, or supervision when expanding scope of practice • Has no ability to update 	<ul style="list-style-type: none"> • Can identify basic limits of professional competence • Recognizes the need to use knowledge of professional competence to guide scope of practice • In a limited manner, seeks appropriate consultation when unsure about competence or additional need for training and professional development • Has some understanding of the need to seek additional knowledge, training, and supervision when expanding scope of practice 	<ul style="list-style-type: none"> • Understands and identifies limits of professional competence • Uses appropriate knowledge of professional competence to guide scope of practice • Seeks appropriate consultation when unsure about competence and additional need for training and professional development • Seeks additional knowledge, training, and supervision when expanding scope of practice • Updates knowledge and skills relevant to psychological practice on an ongoing basis 	<ul style="list-style-type: none"> • Implements corrective actions after identifying limits of professional competence • Effectively utilizes knowledge of professional competence to guide scope of practice • Asks appropriate questions when seeking consultation about competence or additional need for training and professional development • Correctly identifies additional knowledge, training, and supervision when expanding scope of

	knowledge or skills relevant to psychological practice on an ongoing basis	<ul style="list-style-type: none"> • Can identify some of the knowledge and skills relevant to psychological practice on an ongoing basis 		<p>practice</p> <ul style="list-style-type: none"> • Is responsible for updating knowledge and skills relevant to psychological practice on an ongoing basis
<p>4.2. Critically evaluate professional practice through self-reflection and feedback from others</p> <p>P</p>	<ul style="list-style-type: none"> • Does not engage in systematic and ongoing self-assessment or skill development • Fails to accept responsibility for one's own professional work or take appropriate corrective action • Has not had an opportunity to maintain awareness of personal factors that may impact professional functioning 	<ul style="list-style-type: none"> • Has selective engagement in systematic and ongoing self-assessment and skill development • Can accept some responsibility for professional work and occasionally take appropriate corrective action • Demonstrates some awareness of personal factors that may impact professional functioning 	<ul style="list-style-type: none"> • Engages in systematic and ongoing self-assessment and skill development • Accepts responsibility for professional work and takes appropriate corrective action if needed • Maintains awareness of personal factors that may impact professional functioning 	<ul style="list-style-type: none"> • Consistently applies systematic and ongoing self-assessment and skill development • Takes comprehensive personal and professional responsibility for work and takes appropriate corrective action if needed • Maintains a high degree of awareness for personal factors that may impact professional functioning

PLO 5: Ethical Practice

Students will demonstrate ability to synthesize information regarding laws and ethical codes to resolve ethical issues.

Indicators	Initial	Developing	Developed	Proficient
<p>5.1. Demonstrate and promote values and behaviors commensurate with standards of practice, including ethics codes, laws, and regulations</p>	<ul style="list-style-type: none"> • Does not demonstrate integration or application of ethics codes and laws in professional interactions • Has yet to communicate ethical and legal 	<ul style="list-style-type: none"> • Does not sufficiently demonstrate integration and application of ethics codes and laws in professional interactions • Generally can communicate ethical and legal standards in 	<ul style="list-style-type: none"> • Demonstrates integration and application of ethics codes and laws in all professional interactions • Communicates ethical and legal standards in professional interactions as necessary 	<ul style="list-style-type: none"> • Demonstrates superior integration and application of ethics codes and laws in all professional interactions • Accurately and consistently

	<p>standards in professional interactions</p> <ul style="list-style-type: none"> • Does not seek professional consultation on ethical or legal issues when needed • Some ability to discuss with peers and collaborators any ethical concerns with their behavior • Does not have the ability to take appropriate steps to resolve conflicts between laws or rules and codes of ethics in their professional practice 	<p>professional interactions</p> <ul style="list-style-type: none"> • Seeks minimal professional consultation on ethical or legal issues • Is developing ability to discuss with peers and collaborators any ethical concerns with their behavior • Takes basic steps to resolve conflicts between laws or rules and codes of ethics in their professional practice 	<ul style="list-style-type: none"> • Seeks professional consultation on ethical or legal issues when needed • Discusses with peers and collaborators any ethical concerns with their behavior • Takes appropriate steps to resolve conflicts between laws or rules and codes of ethics in their professional practice 	<p>communicates ethical and legal standards in professional interactions as necessary</p> <ul style="list-style-type: none"> • Always seeks professional consultation on ethical or legal issues when needed • Effectively discusses with peers and collaborators any ethical concerns with their behavior prior to making considered decision • Identifies and implements appropriate steps to resolve conflicts between laws or rules and codes of ethics in their professional practice in accordance to all applicable rules, laws, and regulations
<p>5.2. Accurately represent and document work performed in professional practice and scholarship</p>	<ul style="list-style-type: none"> • Has yet to maintain complete or accurate records • Does not know how to report research results accurately to avoid personal biases 	<ul style="list-style-type: none"> • Recognizes the need to maintain complete and accurate records • Has limited ability to report research results accurately, avoiding personal biases 	<ul style="list-style-type: none"> • Maintains complete and accurate records • Reports research results accurately, avoiding personal biases 	<ul style="list-style-type: none"> • Maintains complete, organized, and accurate records prepared for review by an outside agency or auditor • Always reports research results accurately by avoiding personal biases and providing results in a logical manner

<p>15.3. Implement ethical practice management</p>	<ul style="list-style-type: none"> • Has yet to practice in a manner commensurate with laws, ethical standards, practice guidelines, or organizational constraints • Has yet to manage billing practices 	<ul style="list-style-type: none"> • Generally practices in a manner commensurate with laws, ethical standards, practice guidelines, and organizational constraints • Can correctly manage billing practices in an ethical manner 	<ul style="list-style-type: none"> • Practices in a manner commensurate with laws, ethical standards, practice guidelines, and organizational constraints • Manages billing practices in an ethical manner 	<ul style="list-style-type: none"> • Consistently practices in a manner commensurate with laws, ethical standards, practice guidelines, and organizational constraints • Demonstrates superior management of billing practices, ensuring ethical practices
<p>15.4. Establish and maintain a process that promotes ethical decision-making</p>	<ul style="list-style-type: none"> • Does not demonstrate the knowledge needed to systemically identify the ethical and legal issues and conflicts that occur in professional practice • No ability to consult with peers to aid in ethical decision-making when needed • Does not proactively address identified ethical issues 	<ul style="list-style-type: none"> • Can selectively identify the ethical and legal issues and conflicts that occur in professional practice • Uses occasional consultation with peers to aid in ethical decision-making when needed • Proactively addresses some identified ethical issues 	<ul style="list-style-type: none"> • Systemically identifies the ethical and legal issues and conflicts that occur in professional practice • Consults with peers to aid in ethical decision-making when needed • Proactively addresses identified ethical issues 	<ul style="list-style-type: none"> • Systemically identifies the ethical and legal issues and conflicts that occur in professional practice and takes action to remedy any deficiencies • Frequently consults with peers to aid in ethical decision-making when needed • Proactively addresses identified ethical issues in collaboration with identified experts in the field

PLO 6: Collaboration and Consultation

Students will consult and collaborate professionally with individuals in broader interdisciplinary systems to provide excellent, ethical patient care.

Indicators	Initial	Developing	Developed	Proficient
<p>6.1. Work effectively within organizations and systems</p>	<ul style="list-style-type: none"> • Does not recognize the organizational or systemic factors that affect delivery of 	<ul style="list-style-type: none"> • Does not sufficiently recognize the organizational and systemic factors that 	<ul style="list-style-type: none"> • Recognizes the organizational and systemic factors that affect delivery of psychological services 	<ul style="list-style-type: none"> • Identifies all aspects of the organizational and systemic factors that affect delivery of

	<p>psychological services</p> <ul style="list-style-type: none"> • Has yet to utilize knowledge of organizations and systems to optimize delivery of psychological services 	<p>affect delivery of psychological services</p> <ul style="list-style-type: none"> • Demonstrates minimal knowledge of organizations and systems 	<ul style="list-style-type: none"> • Utilizes knowledge of organizations and systems to optimize delivery of psychological services 	<p>psychological services</p> <ul style="list-style-type: none"> • Accurately and logically utilizes knowledge of organizations and systems to optimize delivery of psychological services
6.2. Demonstrate interdisciplinary collaborations	<ul style="list-style-type: none"> • Does not know how to collaborate with various professionals to meet client goals 	<ul style="list-style-type: none"> • Is developing the skills needed to collaborate with various professionals to meet client goals 	<ul style="list-style-type: none"> • Collaborates with various professionals to meet client goals 	<ul style="list-style-type: none"> • Forms excellent collaborative relationships with various professionals to meet client goals
6.3. Consult and collaborate with, and across, professions	<ul style="list-style-type: none"> • Does not tailor consultation requests or provisions information based on knowledge of other's professional needs and viewpoints • Fails to use evidence based psychological theories, decision making strategies, or interventions when consulting • Has yet to continually evaluate, modify, or assess the effectiveness of consultation 	<ul style="list-style-type: none"> • Can tailor basic consultation requests and provision of information based on other's professional needs and viewpoints • Uses evidence based psychological theories, decision making strategies, and interventions when consulting • Recognizes the need to continually evaluate, modify, and assess the effectiveness of consultation 	<ul style="list-style-type: none"> • Tailors consultation requests and provision of information based on knowledge of other's professional needs and viewpoints • Uses evidence based psychological theories, decision making strategies, and interventions when consulting • Continually evaluates, modifies, and assesses the effectiveness of consultation, considering all relevant variables 	<ul style="list-style-type: none"> • Consistently tailors consultation requests and provision of information based on knowledge of other's professional needs and viewpoints • Uses thoroughly researched evidence based psychological theories, decision making strategies, and interventions when consulting • Selects, defends, continually evaluates, modifies, and assesses the effectiveness of consultation
6.4. Evaluate service or program effectiveness across a variety of contexts	<ul style="list-style-type: none"> • Does not develop plans for evaluating service or program effectiveness • Needs tools to assess outcome effectiveness 	<ul style="list-style-type: none"> • Has limited ability to develop plans for evaluating service or program effectiveness • Has some understanding of 	<ul style="list-style-type: none"> • Develops plans for evaluating service or program effectiveness • Assesses outcome effectiveness in an ongoing way 	<ul style="list-style-type: none"> • Develops comprehensive plans for evaluating program effectiveness • Effectively utilizes outcome measures to

	in an ongoing way	assessing effectiveness in an ongoing way		modify expectations in an ongoing way
--	-------------------	--	--	--
