

Jialal Memorial Lectureship

Presents:

“A Physiological Approach to Coagulation and Coagulation Testing”

SPEAKER

Willam E. Winter, M.D., FAACC, FCAP
Professor, University of Florida,
Gainesville

DATE, TIME, & LOCATION

September 19th, 2018
12pm - 1pm, CNUCOM Classroom 1A
1pm, Meet the Professor Q & A Session

TOPIC

“A Physiological Approach to Coagulation and Coagulation Testing” will describe standard coagulation tests such as the prothrombin time (PT), the activated partial thromboplastin time (aPTT), fibrinogen, platelet count and platelet function tests in a physiological context. There are considerable differences between what happens in vivo (in life) versus what happens in vitro (in the test tube) when we consider coagulation testing.

CNU STUDENTS, FACULTY, & STAFF INVITED

**PLEASE RSVP
LUNCH WILL BE PROVIDED**
